INFINITY

FUTURE |N|G|E| TECHNOLOGY

NEUROCOSMETICS

The skin is connected to the NERVOUS SYSTEM from the start, as they are both created in the same embryonic layer. It has an infinity of nerve endings that send signals to the brain via neurotransmitters, to which the brain responds. **NEUROCOSMETICS act on the nervous system, counterbalancing negative stimuli to prevent the appearance of the global signs of aging.**

GENOME COSMETICS

Genetic information (DNA) determines how our skin ages, but as time passes, and due to external factors, this information becomes damaged, **accelerating** the appearance of the signs of aging. **GENOMIC COSMETICS protect the DNA and prevent those damages, keeping the skin younger for longer.**

EPIGENETICS COSMETICS

Epigenetics has proven that the action of our genes is closely linked to the appearance of our skin, as the activation and regulation of processes key to keeping it in perfect condition depend on it. For this reason, **EPIGENETIC COSMETICS act on the genes to make them work like they do in young skin, prolonging its youth.**

INFINITY BEAUTY PLAN Premium +50

Intelligent cosmetics that reverses the signs of aging.

ACTION:

- Stimulates the synthesis of serotonin, the so-called "hormone of happiness".
- Restores skin firmness and **fight**s flaccidity.
- Softens involuntary facial contractions caused by chronic stress on the skin. Anti-wrinkle.
- Improves cellular processes, enhancing the **repairing, regenerative** and **energetic** abilities of the skin.

RESULTS:

Plump, supple skin; softened wrinkles and an intensely **rejuvenated** face.

CORPORAL PROTOCOLS FOR A PERFECT BODY

“A state-of-the-art cosmetic product taking another step forward with the Triple Action Beauty Program”

“FAT BURNING” ACTIVE INGREDIENTS

The active ingredients in the PROFESSIONAL BODY SYSTEM work directly on accumulated fat deposits in the adipocyte breaking it down and contributing to its elimination (lipolysis). Furthermore, it prevents the accumulation of fat in the adipocyte (lipogenesis) and inhibits the proliferation of new fat cells.

DRAINING ACTIVE INGREDIENTS

The active ingredients contained in the PROFESSIONAL BODY SYSTEM improve the microcirculation of the blood and thanks to their draining effect, they prevent the retention of fluids.

FIRMING ACTIVE INGREDIENTS

In reductive treatments it is essential to apply firming cosmetics given that after having reduced fatty tissue distension occurs in the treated area. The innovative firming active ingredients, rich in amino acids and vitamins, act on the collagen and elastin avoiding deterioration and reinforcing them. As a result, the skin is firmed and toned, preventing the appearance of flaccidity.

Activator Pen

AA0005 

The next generation **microneedling** device with an autonomous product supply system. The exclusive CASMARA **ActivatorPen** releases the product evenly while performing the **micropunctures**. Includes a syringe in the upper part of the device where the product is inserted, allowing the professional to control how much is released by using two buttons. In this way, **penetration is optimized** while performing the micropunctures, through which all the product is inserted deeply into the skin.

Activator Pen features:

- VERTICAL PUNCTURE technology, which creates clean, safe punctures.
- AUTONOMOUS PRODUCT SUPPLY system.
- Four DETACHABLE HEADS to choose from: 12 and 36 needles (face), 42 needles (body), nano (facial pigments).
- 5 ADJUSTABLE SPEEDS (5.500, 6.500, 7.500, 8.500, 9.500 rpm).
- CONTROLLED AND ADJUSTABLE DEPTH (0,2-2 mm).
- WIRELESS: 2 hours' charging time and 2-3 hours' battery life.
